

REMARKS

Applicant has amended the claims 2 through 5, canceled the claim 1 without prejudice, and amended the specification and abstract. Applicant respectfully submits that these amendments to the claims, specification and abstract are supported by the application as originally filed and do not contain any new matter. Accordingly, the Office Action will be discussed in terms of the claims, specification and abstract as amended.

The Examiner has objected to the disclosure and pointed out that the specification refers to claims. Applicant has eliminated this reference to claims and respectfully submits that the specification is not now objectionable. Still further, Applicant has noticed that the abstract is not in proper form and has further amended the abstract to comply with the U.S. practice.

The Examiner has objected to the claims and pointed out certain informalities. Applicant has amended the claims and respectfully submits that the claims 2 through 5 are not now objectionable.

The Examiner has indicated that claim 5 is allowed and would be allowed if the formalities matters similar to those in claim 1 were corrected. Applicant has amended the claim 5 and respectfully submits that it is now allowable. In addition, Applicant has canceled the claim 1 without prejudice and amended the claims 2 through 4 to be directly or indirectly dependent upon the allowed claim 5. Therefore, Applicant respectfully submits that the dependent claims 2 through 4 are also now allowable. Accordingly, Applicant respectfully submits that the claims 2 through 5 are all allowable and Applicant accepts these allowed claims.

In view of the above, therefore, it is respectfully requested that this amendment be entered, favorably considered and the case passed to issue.

Please charge any additional costs incurred by or in order to implement this Amendment or required by any requests for extensions of time to QUINN EMANUEL DEPOSIT ACCOUNT NO. 50-4367.

Respectfully submitted,
